

SW-640L-TX-W

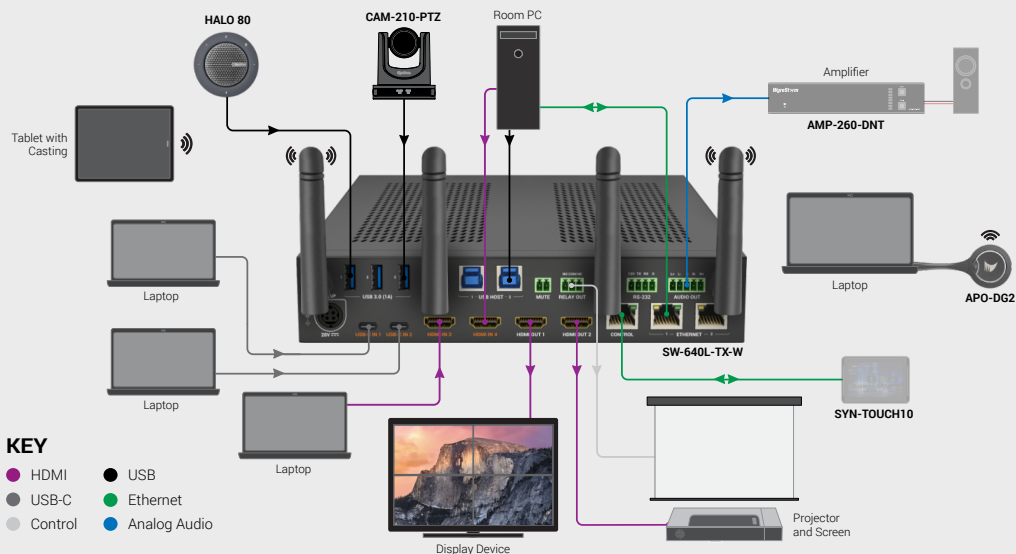

Wireless Collaboration. Dual-display Flexibility. Smarter Meetings

The SW-640L-TX-W is built for modern meeting spaces, combining dual USB-C, wireless casting, multi-view, matrix outputs, USB 3.0 switching, and cloud management in one powerful platform. It makes it easy to connect, present, and collaborate across boardrooms, huddle spaces, and training rooms.

Why Choose SW-640L-TX-W?

The SW-640L-TX-W simplifies how teams share and collaborate, combining single-cable USB-C, instant wireless casting with the APO-DG2, dual-screen output, quad-view display, and cloud management in one smooth, intuitive experience.

Flexible input. Smarter switching. Better collaboration.

Key Benefits

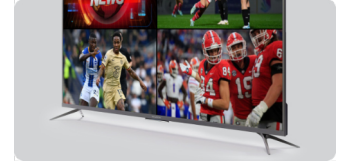

Dual USB-C with 60W Charging

Two USB-C inputs with 60W power delivery enable single-cable laptop connection for video, data, charging, and cleaner, faster everyday meetings.

Wireless Casting Made Simple

Present wirelessly from laptops, tablets, and phones via AirPlay, Miracast, or the plug-and-play APO-DG2-PRO, with up to four on-screen devices and no cables, adapters, or software delays.

Multi-view Collaboration

Display up to four sources at once in a clean multi-view layout for easier comparison, collaboration, and visibility across documents, dashboards, participants, or other inputs.

Independent Dual Outputs

Dual HDMI outputs support independent switching or mirrored content, making the SW-640L-TX-W ideal for flexible dual-screen meeting rooms.

Integrated USB 3.0 Hub

A built-in USB 3.0 switching hub connects speakerphones, cameras, and other peripherals to support smooth BYOD and wireless conferencing workflows.

Ready for Modern Conferencing

With wireless presentation, USB peripheral support, flexible connectivity, and cloud-based management, the SW-640L-TX-W helps create meeting spaces that work naturally with Zoom, Microsoft Teams, and Webex.

Main Applications

Education

- Training rooms, classrooms, and collaborative learning environments.

Corporate

- Executive boardrooms, conference rooms and dual-display meeting spaces.

Collaboration Spaces

- Huddle rooms, team spaces, and agile work environments.

Government & Defence

- Secure meeting rooms and courtrooms.
