Product Overview

Plug and Play Portable USB and Bluetooth Conference Speakerphone

The HALO 80 is designed for modern flexibility and performance. This all-in-one speakerphone features advanced AEC (Acoustic Echo Cancellation), AGC (Auto Gain Control), and ANS (Automatic Noise Suppression), delivering crystal-clear audio in remote conferences. With support for both USB and Bluetooth connectivity, it adapts seamlessly to various setups—from huddle rooms to large meeting spaces. Equipped with four omnidirectional mic arrays and a powerful full-range speaker, it offers plug-and-play convenience and broad compatibility with major operating systems and conferencing platforms.

By cascading up to nine HALO 80 units, it ensures reliable coverage and exceptional audio quality, making it an ideal solution for meeting spaces of any size.

Main Features

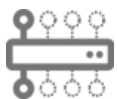

Premium Mic & Speaker Array

Four precision omnidirectional microphones pick up voices in all directions, paired with a high-fidelity 3W full-range speaker that delivers rich, natural sound throughout the room.

Versatile Connection

Connect instantly via USB or Bluetooth, empowering participants to join meetings their way.

Premium Audio Performance

Advanced audio processing with Acoustic Echo Cancellation, Noise Suppression, and Automatic Gain Control delivers crystal-clear speech while eliminating distractions to ensure every word is heard.

Instant Meeting Start-Up

Truly plug-and-play: easy to install, no complex setup. Just connect, collaborate, and communicate.

Room-Ready Scalability

Cascade up to nine units for effortless coverage, from compact huddle rooms to expansive boardrooms, without sacrificing clarity.

Universal Platform Support

Fully compatible with Windows, macOS, and all major unified communications platforms for seamless integration into your workflow.

WyreStorm

Powerful · Reliable · Simple

Why Choose Us: 1. Crystal-Clear Collaboration, Anywhere

Engineered for modern hybrid work environments, it delivers exceptional audio quality, seamless connectivity, and effortless scalability, whether in a huddle room, boardroom, or large meeting space.

Premium Audio Clarity

Four omnidirectional mic arrays and a powerful 3W speaker ensure every voice is captured with clarity and delivered with natural warmth.

Flexible Connectivity

Connect via USB or Bluetooth for seamless compatibility with laptops, tablets, and mobile devices.

Intelligent Audio Optimization

Featuring Acoustic Echo Cancellation, Noise Suppression, and Automatic Gain Control, the system adapts automatically to deliver optimal sound in any environment.

Scalable Meeting Coverage

Cascade up to nine units to cover large spaces without losing audio quality.

Powerful · Reliable · Simple

Why Choose Us: 2. Simplicity Meets Professional Performance

Designed for ease of use and uncompromising quality, our speakerphone combines advanced audio technology with seamless plug-and-play functionality, ensuring more productive meetings.

Instant Setup

Easy installation without complex configuration. Plug in or pair via Bluetooth and start your meeting in seconds.

Consistent Audio Quality for Any Room Size

Delivers consistent audio quality from small meeting rooms to large conference spaces.

Universal Compatibility

Works seamlessly with Windows, macOS, and all major unified communications platforms such as Zoom, Teams, and Webex.

Expansion-Ready Design

Flexible architecture and connectivity options ensure your system can grow with your business needs.

Interface of the Product

Front Panel

Featuring:

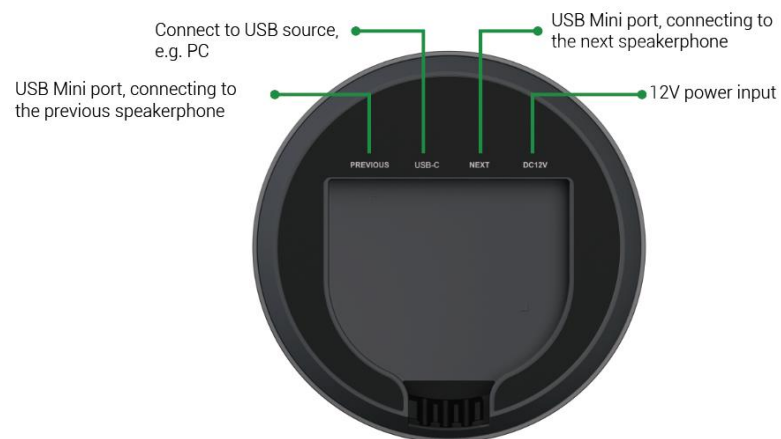

Touch Button Controls :

Capacitive touch buttons allow easy adjustment of volume, management of Bluetooth pairing, and muting/unmuting of the microphone.

Mini-USB & USB-C Ports :

Mini-USB port enables effortless device cascading, while USB-C delivers plug-and-play connection to your laptop or other devices.

Rear Panel

What's in the Box?

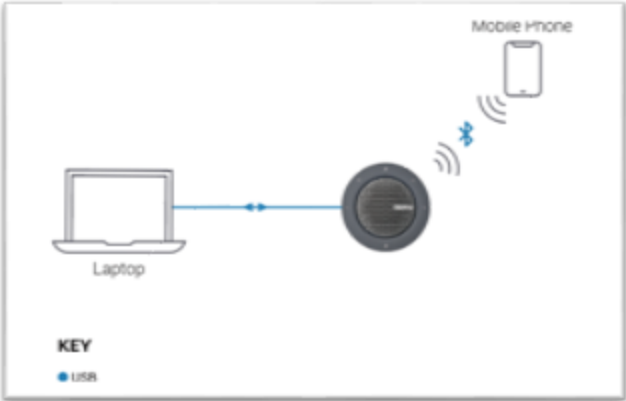

- 1 x HALO 80 Speakerphone
- 1 x USB 2.0 Type-A to Type-C Cable (L=1.5m)
- 1 x DC 12V Power Adapter
- 1 x USB Mini Cable (L=3m)
- 1 x Quick Start Guide

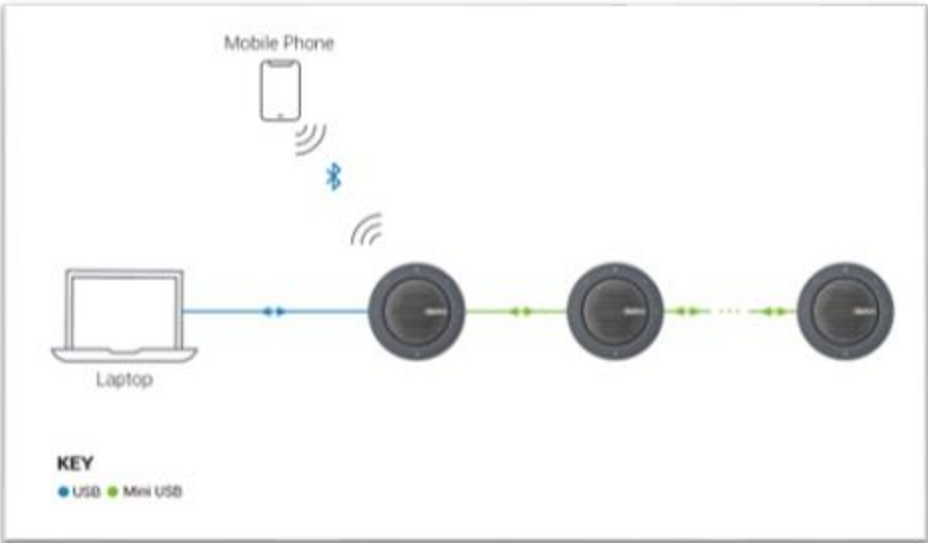

Powerful · Reliable · Simple

Typical Connection & Applications

The HALO 80 supports connection to a source device via USB or Bluetooth and offers two application modes: Standalone mode and Daisy-Chain mode. Please refer to the typical connection diagram below.

Standalone Mode

*Daisy-Chain Mode

Cascading Connection Table

Cascading Units	DC Port	PREVIOUS Port	NEXT Port	USB-C
1 st HALO 80	✓ (With power adapter)		✓	✓
2 nd HALO 80		✓	✓	
3 rd HALO 80		✓	✓	
4 th HALO 80	✓ (With power adapter)	✓	✓	
5 th HALO 80		✓	✓	
6 th HALO 80		✓	✓	
7 th HALO 80	✓ (With power adapter)	✓	✓	
8 th HALO 80		✓	✓	
9 th HALO 80		✓		

*When Daisy-Chain mode, every three HALO 80 units require a single power adapter connection to the first unit and only the type-c port on the first HALO 80 of the whole wiring connection is working.

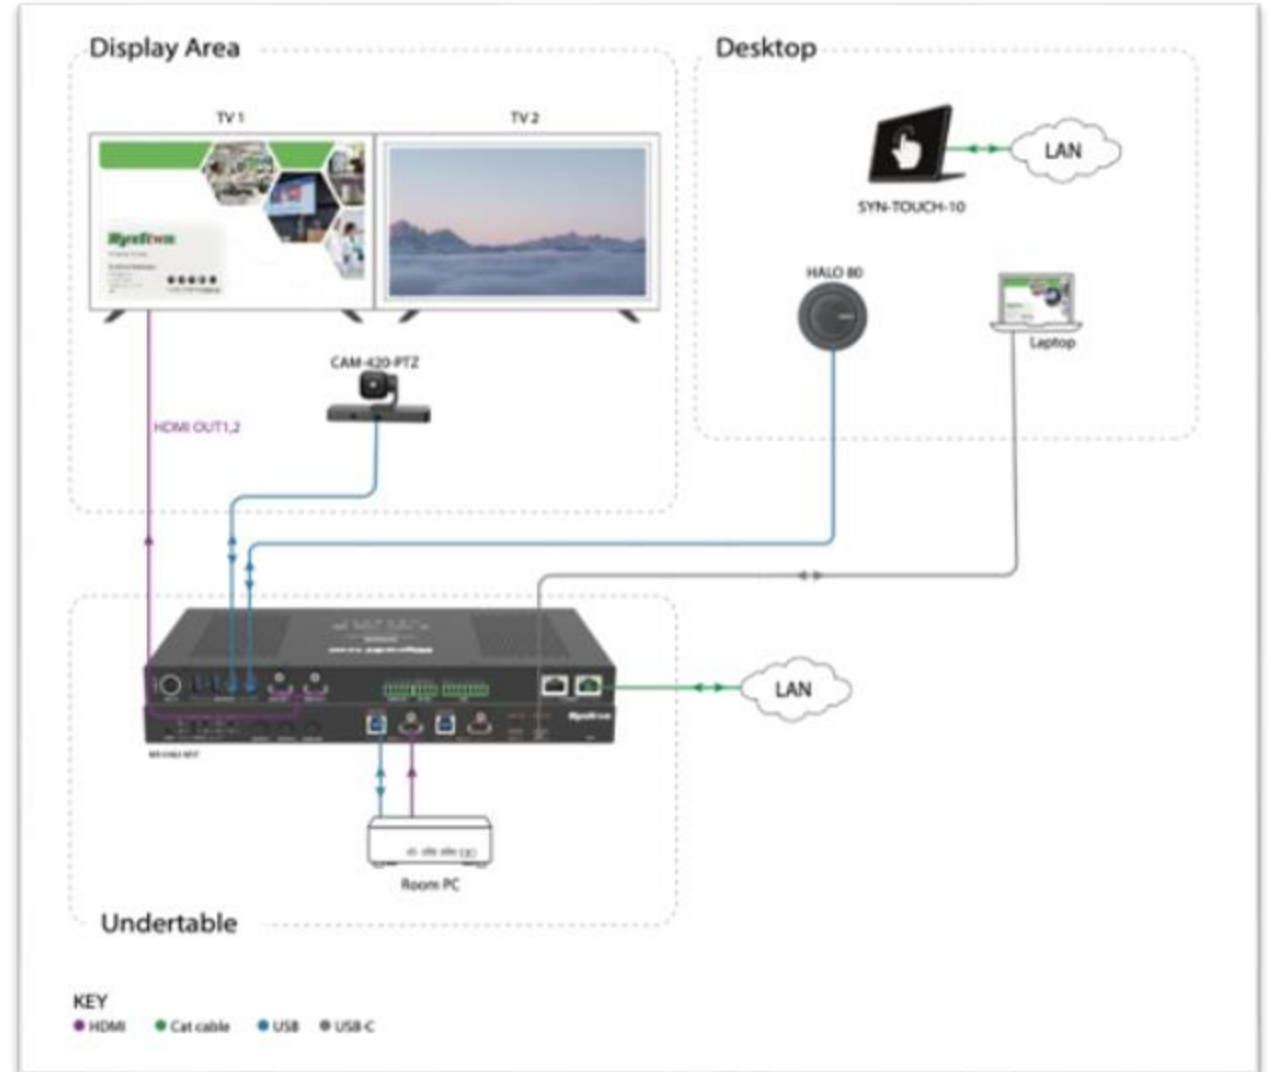

Typical Connection & Applications

Application Scenario 1: Medium Meeting Room

This solution empowers participants to effortlessly join the meeting. Its user-friendly design ensures smooth communication, enhancing collaboration and productivity for all participants.

Key Benefits Include:

- **Dual-Screen Connection:** Supports dual-screen setup for clear and comprehensive presentations
- **Full-Featured USB-C Integration:** Provides all-in-one transmission via USB-C, combining video, audio, Ethernet, USB data, and power through a single cable for simplified setup.
- **MST Capability:** Enables extended content sharing and productivity with MST support

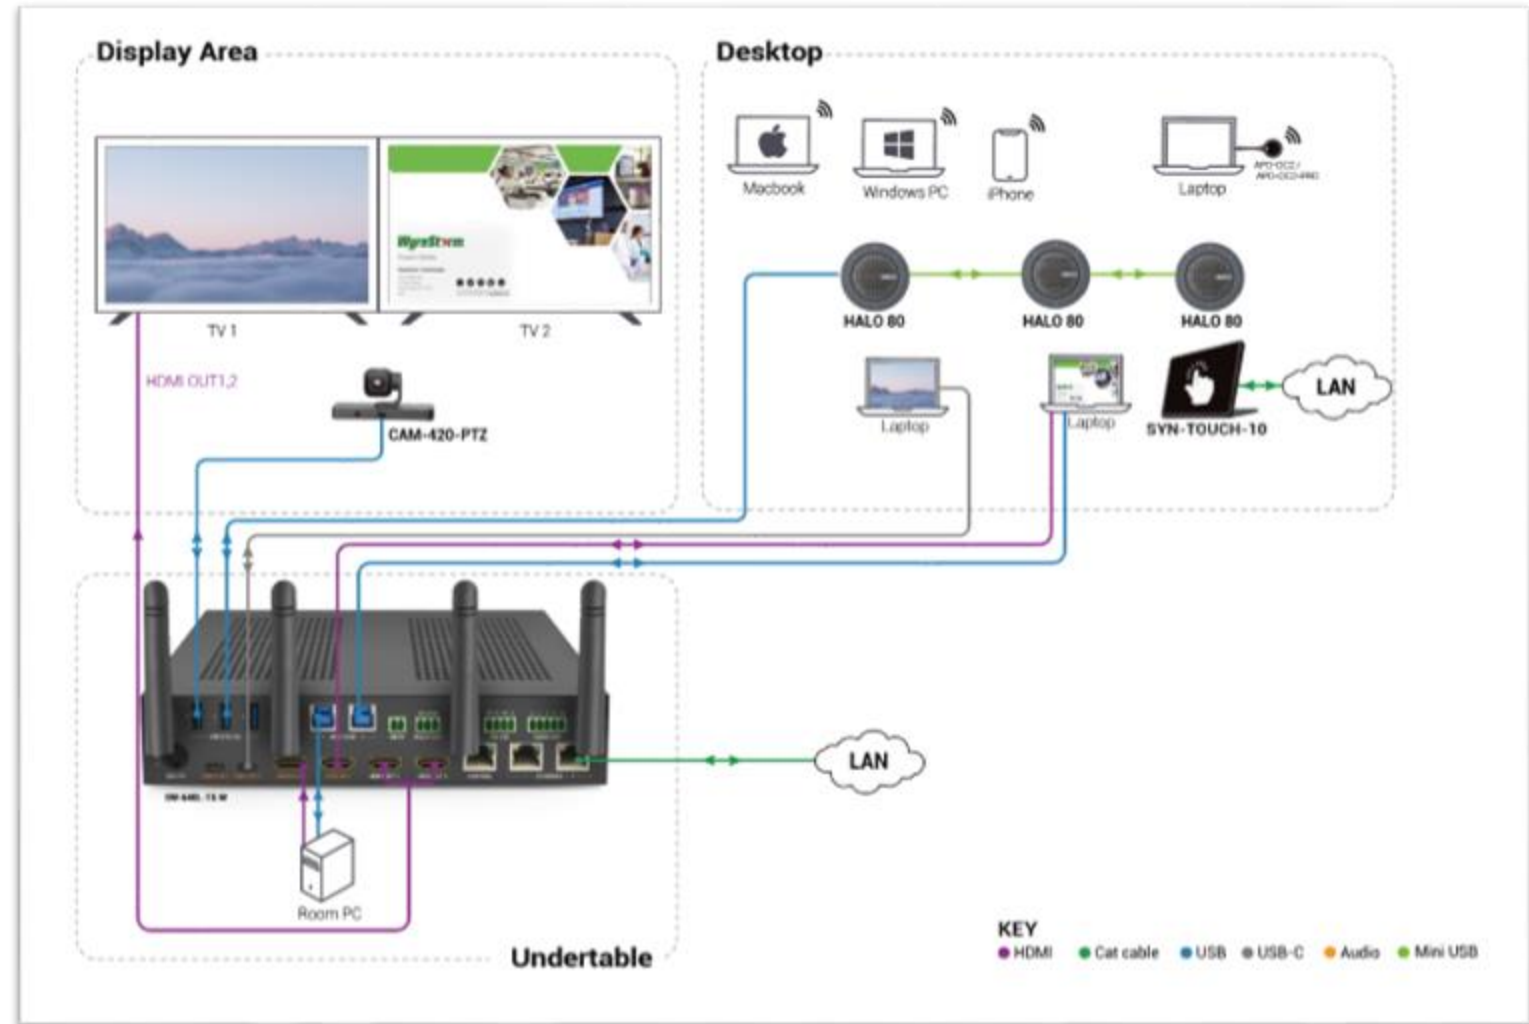

Typical Connection & Applications

Application Scenario 2: Medium Meeting Room

This solution simplifies installation with its plug-and-play design, significantly enhancing meeting efficiency for both in-person and remote conferencing, ensuring every meeting is productive and smooth.

Key Benefits Include:

- **Multiple Casting Methods:** Simplifies presentations with various casting options.
- **Scalable Cascading Setup:** Scales the number of HALO 80 units to fit different meeting room sizes.
- **Smart Panel:** One-click control for all functions.
- **Dual-Screen Connection:** Ensures clear and comprehensive display.
- **Fast Seamless Switching:** Quick and smooth transitions between inputs.

Quick Installation Guide

Effortlessly set up your HALO 80 with simple steps, ensuring seamless configuration and an exceptional audio experience.

- **Connect Interfaces:** Follow the standard connection guidelines and adjust connections according to your setup for optimal performance.
- **Set up Your Cascading:** Connect the first unit to your PC via the USB-C port, then connect it to the NEXT and PREVIOUS units using a Mini USB cable. (One power adapter can support up to three HALO 80 units, and should be connected to the first unit.)
- **Start the Device:** Use the intuitive touch control button to operate the speakerphone function.
